Leo L. Whiting, General Manager

TO OUR LISTENERS -- A PLEDGE!

AS guests in your home, KEYD will conduct itself with dignity and awareness of the responsibilities of guests.

WE will comfort, entertain, and enlighten all members of your family, and do so in good taste.

WE will not offend nor embarrass any member of your family at any time.

WE will maintain our commercial and sustaining appeal on a strict moral level and only try to influence your patronage with firms of the highest calibre.

WE will not spread seeds of hatred, un-American propaganda, or anti-Christian philosophy in your living room.

WE welcome our invitation into your home, and we hope that our policy will merit continued associations.

THE MANAGEMENT OF KEYD.

That Popular Guy Slim Jim

Slim Jim, the beloved and well-known entertainer, is heard exclusively over the Family Station. Almost as much of a legend in the Upper Midwest region as the fabulous Paul Bunyan, Slim has endeared himself to listeners in all walks of life. On his regular **keyd** programs which are broadcast during the morning and noontime hours, and on his Saturday and Sunday shows, Slim features folk songs and reads poems and verses — all in his own warm, friendly style.

Slim, in person

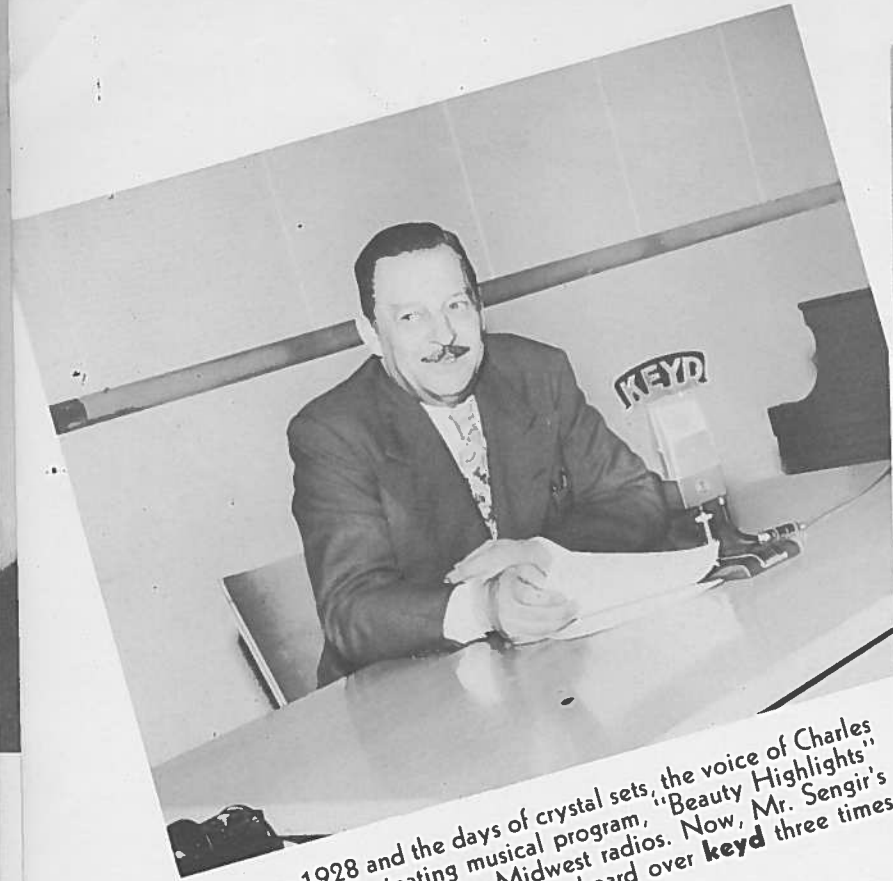

THE LONG AND SHORT of good listening is shown here in person as Little Doris matches Slim Jim's six foot four with the help of a chair.

A VETERAN BROTHER TEAM is Slim and the Vagabond Kid, in real life his own brother. They've been together for a good many years and now add their talents exclusively to the Family Station's daily schedule.

SLIM AND THE KID with their amateurs can be heard every Saturday morning at the 1440 spot on your dial. Slim loves kids and gives them a real chance to bring their talents to radio while gaining valuable experience at the same time.

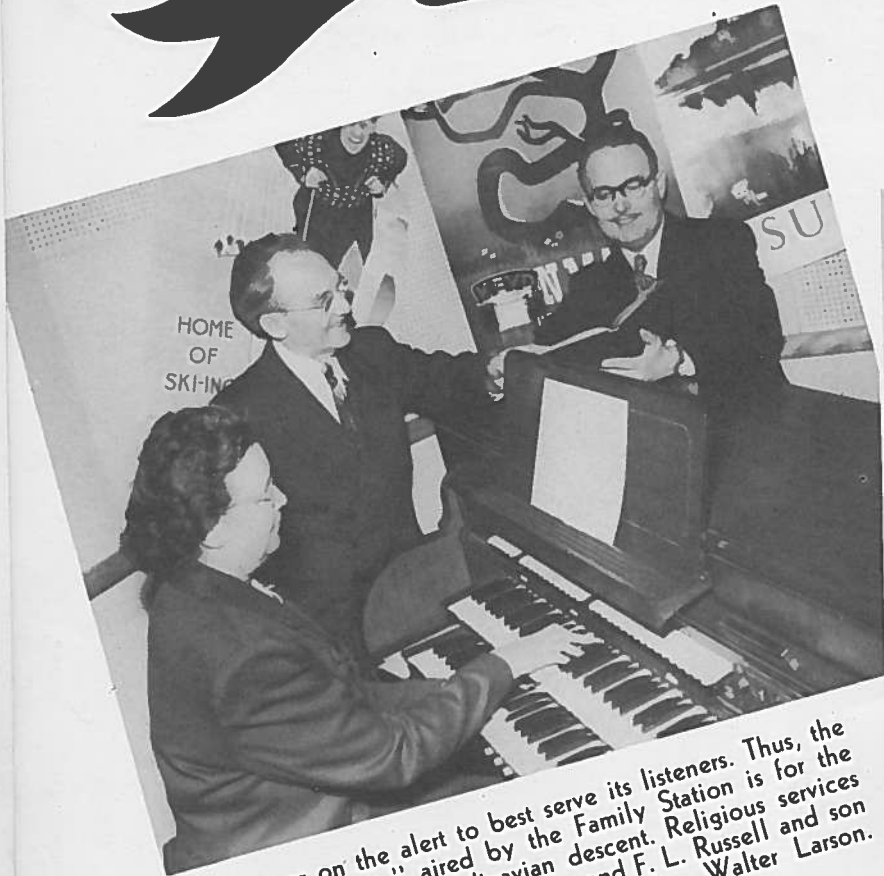

Ever since 1928 and the days of crystal sets, the voice of Charles Sengir on his fascinating musical program, "Beauty Highlights" has been heard on Upper Midwest radios. Now, Mr. Sengir's comments on care of the hair are heard over **keyd** three times weekly.

The mail literally comes "pouring in", when **keyd's** "Record Rodeo" takes over the airwaves. Every Saturday afternoon, emcee Harry Zimmerman and his partner, Slim Jim bring to thousands of Upper Midwest fans three tuneful hours of Western, folk and other typically American music. "Record Rodeo" is a welcome change in the usual Saturday afternoon radio fare and **keyd's** listeners show their approval by keeping the mail bag filled to the brim.

WHOLESOME FAMILY ENTERTAINMENT

AT 1440 ON

keyd is ever on the alert to best serve its listeners. Thus, the "Evangelii Budbarare" aired by the Family Station is for the benefit of people of Scandinavian descent. Religious services in the Scandinavian tongue by Reverend F. L. Russell and son Harold are accompanied by organist, Mrs. Walter Larson.

Eagerly awaited is the thrice-weekly "Wurlitzer Bulletins" which presents news items sent in by church and religious groups as a service feature of **keyd** and the sponsor of the series. Talented Jimmy Allen furnishes pleasant background organ music.

Under sponsorship of the world's largest Federal savings and loan association, "Sunday Serenade" is a listening "must" for lovers of good music. World-renowned artists contribute their share of talent. Highlight of the two hour broadcast is "Community Rostrum" and interviews with outstanding civic leaders. Mrs. Philip Pillsbury, National Vice-Chairman of the 1949 American Red Cross Campaign was a recent guest.

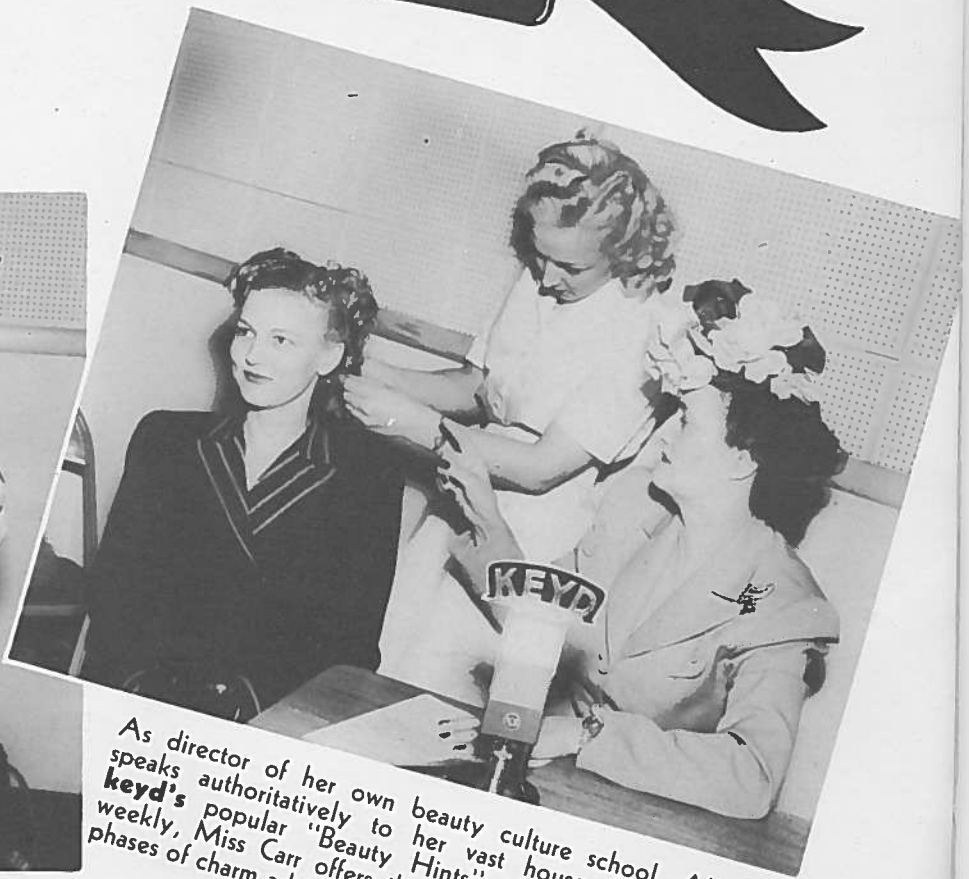

New worlds of sound are experienced by deserving, handicapped people, as **keyd** presents them with monthly gifts of hearing aids on their "I Hear Music" broadcasts. Listeners' letters recommending these persons win the hearing aids plus weekly cash prizes.

MENT FROM THE FAMILY STATION

YOUR DIAL

Every morning except Sunday, Don Riley uses coffee and his ever-faithful alarm clock to start the three hour stanza of **keyd's** "Top Of the Morning" show. It's liberally sprinkled with news, correct time, temperature and weather reports, plus pleasant, lilting music.

As director of her own beauty culture school, Alice Carr speaks authoritatively to her vast housewife audience on **keyd's** popular "Beauty Hints" program. Five afternoons weekly, Miss Carr offers the ladies latest information on all phases of charm advice.

In the capable hands of Music Librarian Irma Coffron, **keyd's** pleasing musical programs are patterned to appeal to the most discriminating melodic tastes. Irma's innate love of music coupled with her extensive background in harmony and library science are contributing factors in earning for **keyd** a reputation as "the station of good music".

Musical Director for the Family Station is Jimmy Allen, whose experience in a well-rounded musical career includes a Master's Degree from Chicago University. His skilled mastery of both organ and piano, which he plays equally well, adds much brightness to many of your favorite **keyd** programs. Jimmy also does orchestral arranging and choral directing.

Let's Look at the

RECORD

Only in America, under the free enterprise system, do we split the dollar so liberally with all who work and produce — that a man's attainment is limited only to his own efforts. It is a simple historical fact that this system has brought greater material means for happiness to more people than any other the world has known.

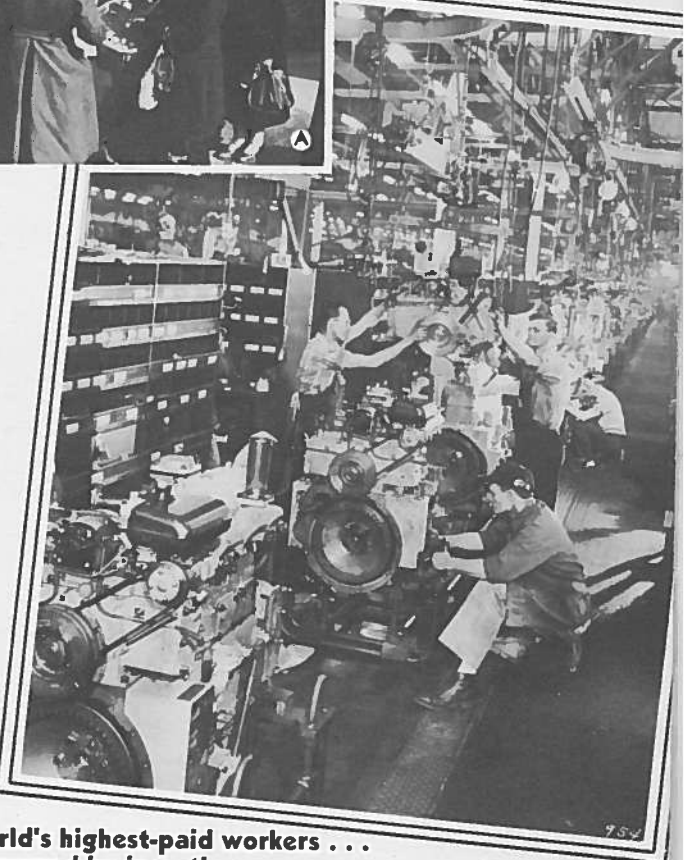

In addition, this system has preserved the basic freedoms of the individual — the freedom to work in the place and calling of his own choice, the freedom to bargain collectively, the freedom to contract about his own affairs, to own property, start an enterprise, profit from his inventiveness, and investments. On these pages is the whole story in fact and photo — that the American Way is the Best Way!

The more abundant life . . . after 162 years of free enterprise

Russians go a-marketing . . . after 27 years of Communism

World's highest-paid workers . . . spurred by incentive

A.F. of L. Labor's Monthly Survey

Americans know the facts of the world because they are the best informed people in the world. They can listen to their choice of almost 2,000 radio stations, or read more than 18,636 newspapers, magazines and periodicals, without fear of punishment or repression.

The POWER

While living standards have moved steadily upward in the United States, with few interruptions, no such progress has been made in nations that refuse to unleash the power of individual economic freedom.

Compare!

"I have no fear but that the result of our experiment will be that men may be trusted to govern themselves without a master. Could the contrary of this be proved I should conclude either that there is no God, or that He is a malevolent Being."
— Thomas Jefferson, 1787.

FREEDOM'S Greatest Document

Men and women who believed in freedom of worship formed the American Government. Today, as then, this freedom is guaranteed by law to each and all of every denomination.

The Bill of Rights passed by the first Congress of the United States in 1790 guarantees the fullest freedom man ever gained — this is your working agreement with the U.S.A. No other nation so recognizes the theory that life, liberty and the pursuit of happiness are God-given privileges.

Science and engineering combine to give American office workers an environment of comfort, convenience, and safety conducive to maximum production and co-operation.

Television, the 20th Century exemplification of the American guarantee of freedom of the press, radio and speech as long as it does not interfere with the rights and liberties of others.

"Since 1787 civilization has been a world of tumbling thrones, prostrated dynasties, overturned constitutions — of new empires, new republics, new and constantly varying conceptions of state.

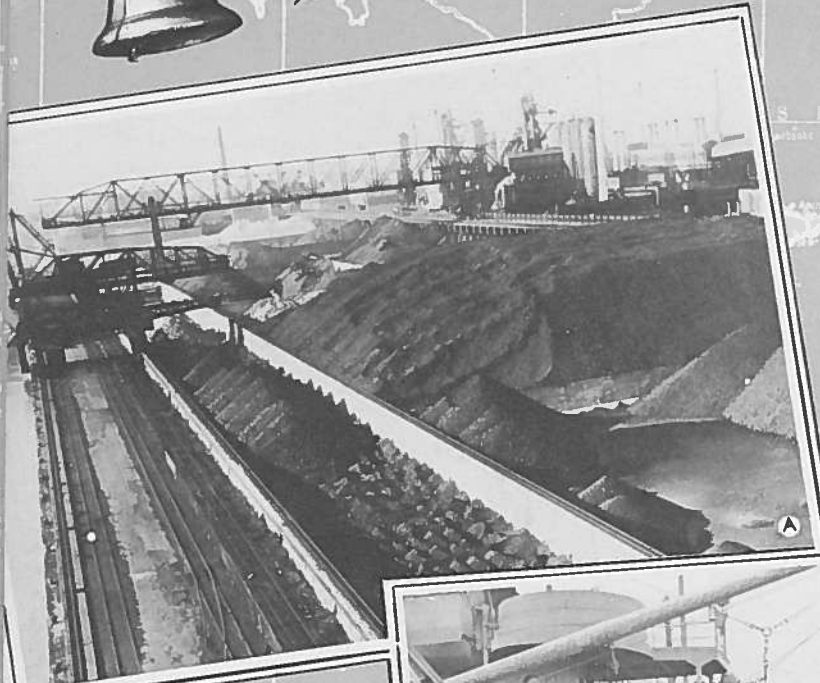

"Yet, in this epoch of upheaval, one political entity has remained intact. The Constitution of the United States of America is essentially the same instrument today that it was in 1787. Almost alone of all the civic organizations that existed 162 years ago it has withstood the storms that have overwhelmed mankind since the day of its adoption." — Burton J. Hedrick, Historian.

This is the **WHOLE STORY...**

Man must believe in Freedom before he dares reach for it. Man must always defend Freedom lest it be snatched away. Let's hold a little tighter to what we have—what we are sure of—our American Way of Life!

In keeping with the American way of freedom of religious expression, **keyd** has dedicated its services, facilities and efforts to the perpetuation of the Eternal Word. The Family Station liberally offers its broadcast time to representative groups of all faiths and creeds fulfilling its obligation to carry to listening worshipers the words of their belief.

Bill Daley, **keyd's** ace Sports Director, **knows** sports because he has actively participated in them. Most noted for being twice voted All-American, Bill played football as fullback on the University of Minnesota and Michigan teams as well as professional ball with the New York Yankees and the Chicago Rockets. Now, as head of the Family Station's Sports Department, Bill reports on all phases of the sporting realm with his two popular daily features, "Daley's Daily" which follows "Fun in Fishing"

SPORTS

**IT'S
keyd**

FOR THE LATEST IN

Although young in years, **keyd** Newscaster Ray Tenpenny is no novice before the microphone. During his eight years as network announcer, Ray has broadcast under the sponsorship of leading national advertisers. His distinctive, dramatic style of reporting latest news events on the daily newscast "News Before Noon" and the Sunday feature "Ray Tenpenny and the News" is rapidly gaining for **keyd** larger audiences throughout the Twin City area.

and **NEWS**

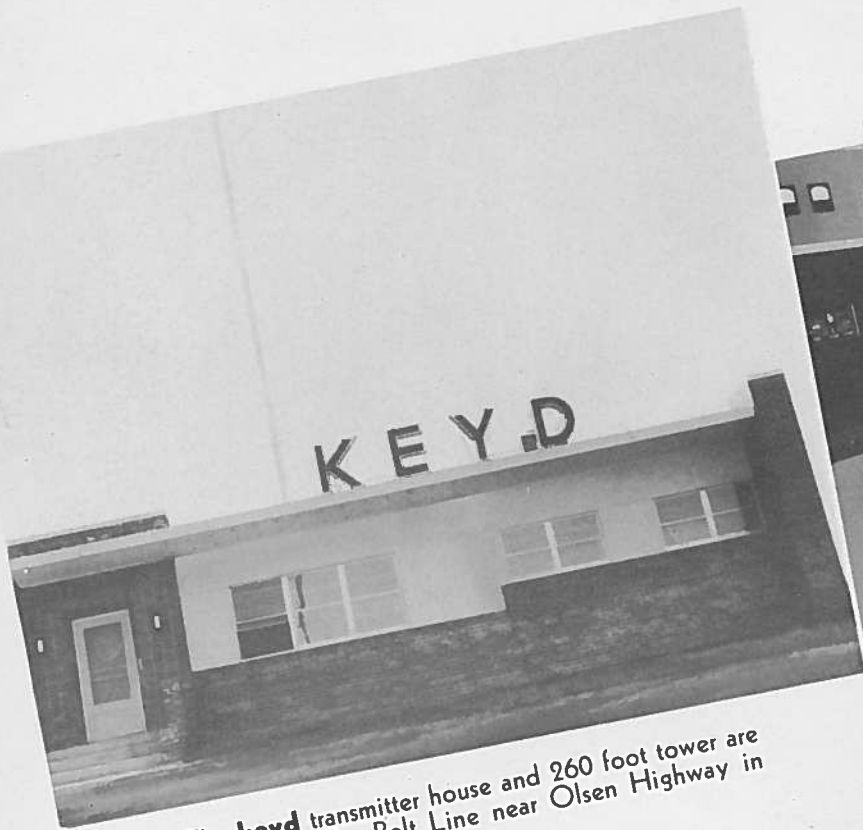

The voice you hear on the Maple Creamery News during the mid-morning hours belongs to Wendy Husebo.

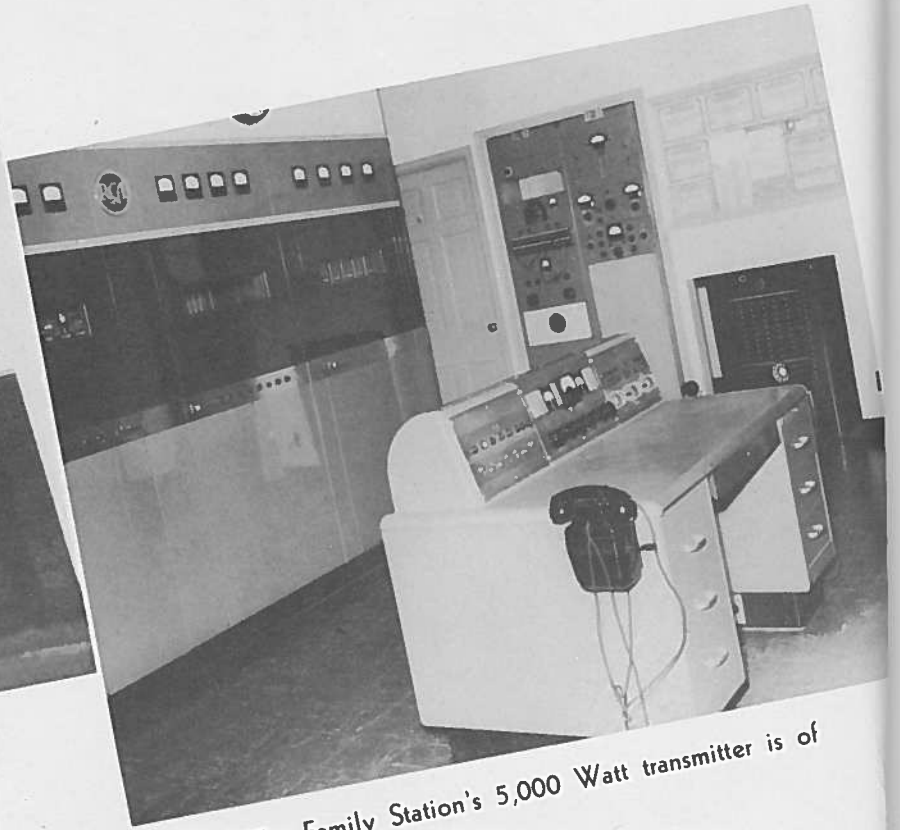

Busy Minneapolitans take a few minutes time to watch bulletins come ticking into the **keyd** newsroom from the far-flung sources of the Associated Press. The window faces on Ninth street and attracts much attention.

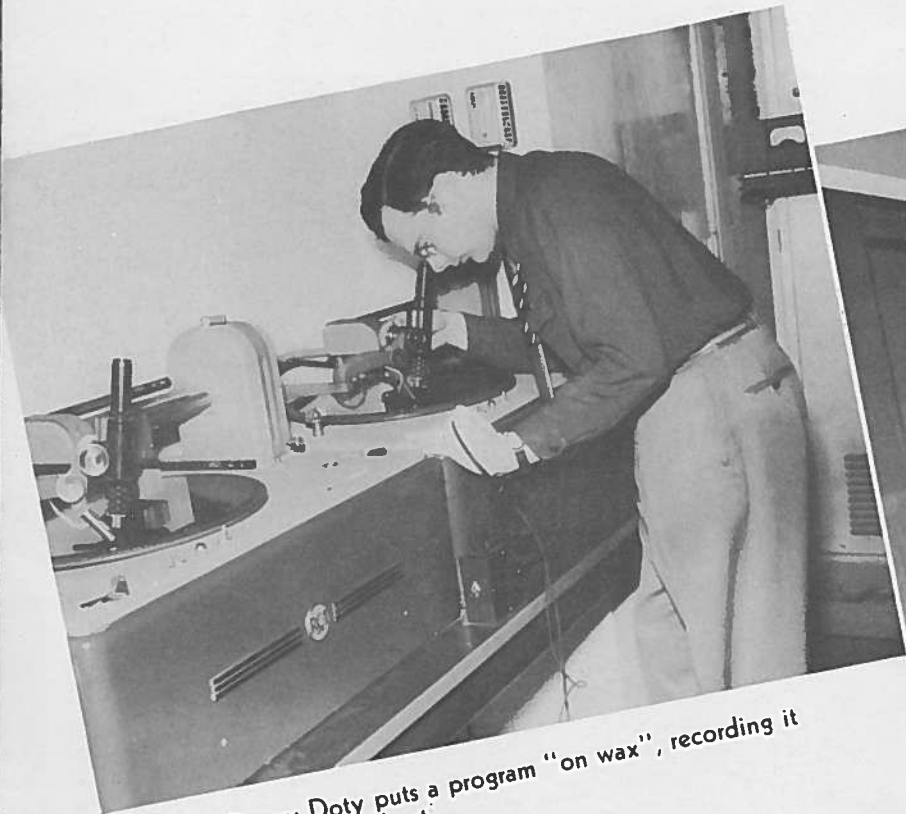

On The Technical Side

The **keyd** transmitter house and 260 foot tower are located on the Belt Line near Olsen Highway in Golden Valley.

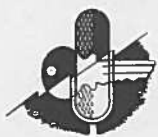

The Family Station's 5,000 Watt transmitter is of latest design.

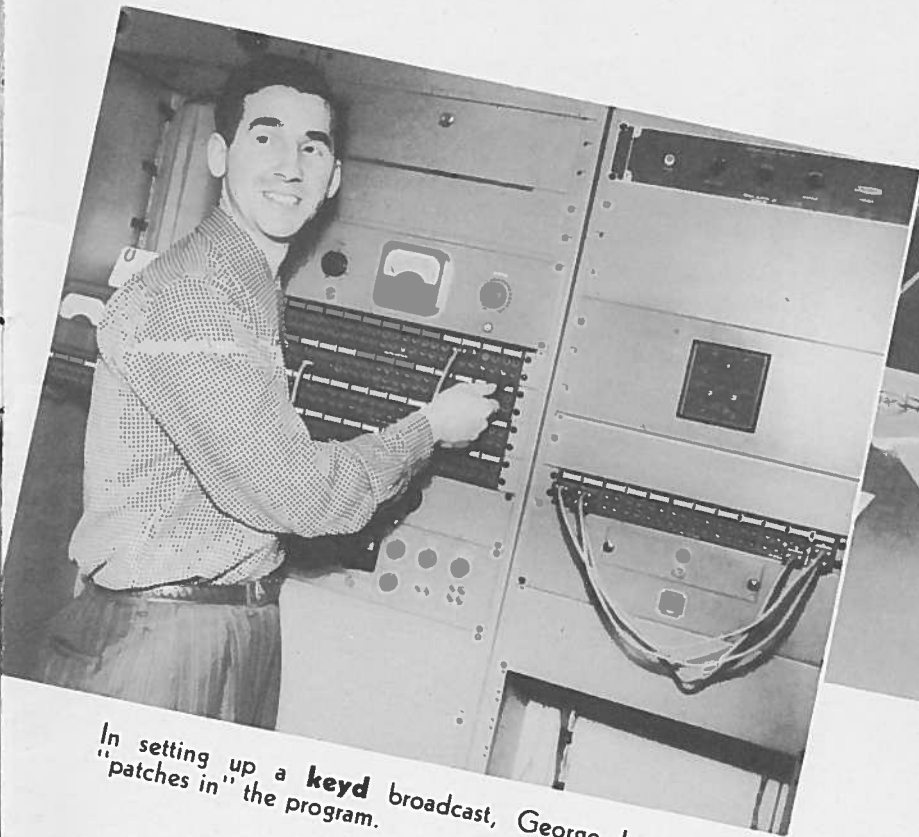

Denvy Doty puts a program "on wax", recording it for later broadcast.

In accordance with government requirements, Elmer Rowekamp takes a transmitter reading.

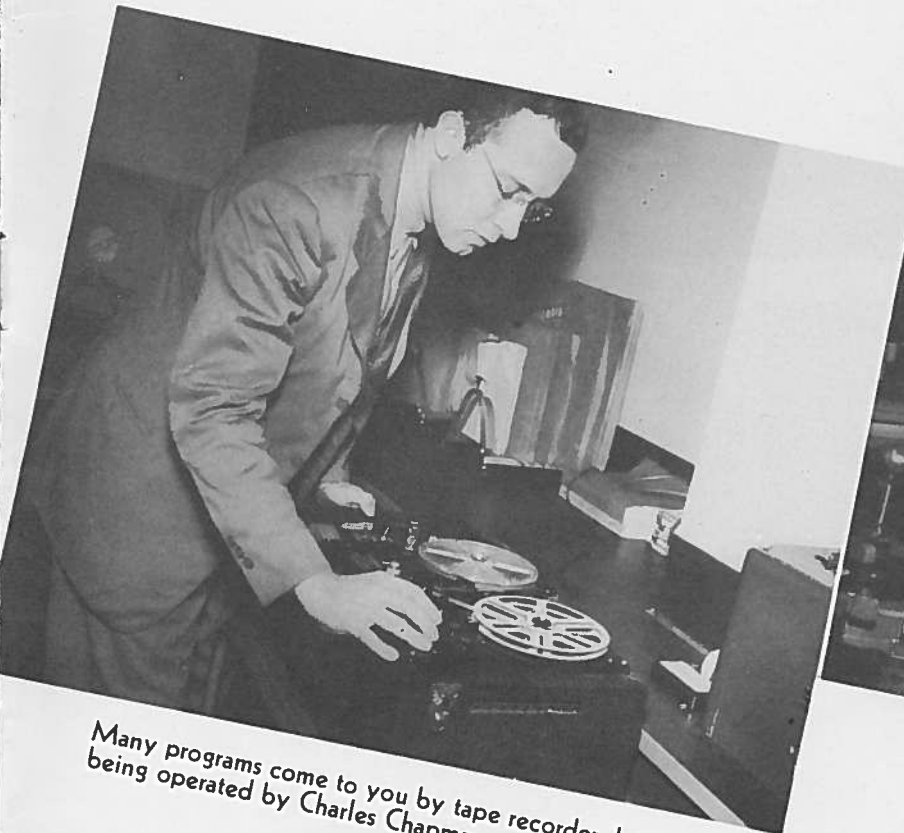

Of **keyd's** 5000 Watts

In setting up a **keyd** broadcast, George Low "patches in" the program.

Buzz Bortel at the console of the Master Control in **keyd's** studios.

Many programs come to you by tape recorder, here being operated by Charles Chapman.

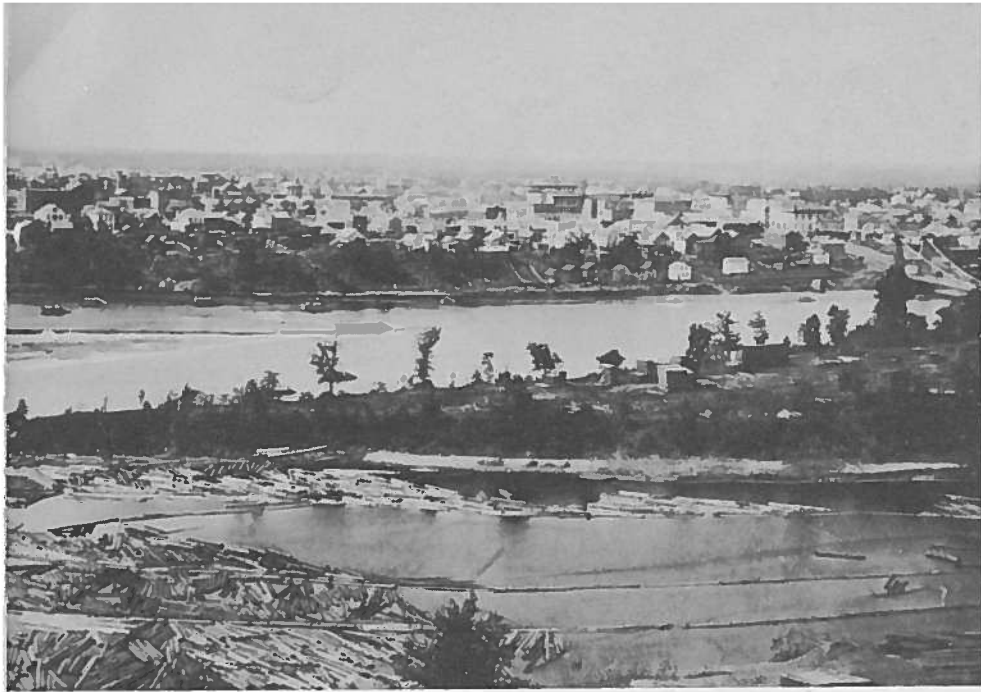

Chuck Kunze helps keep **keyd's** technical equipment in tip-top condition with proper maintenance.

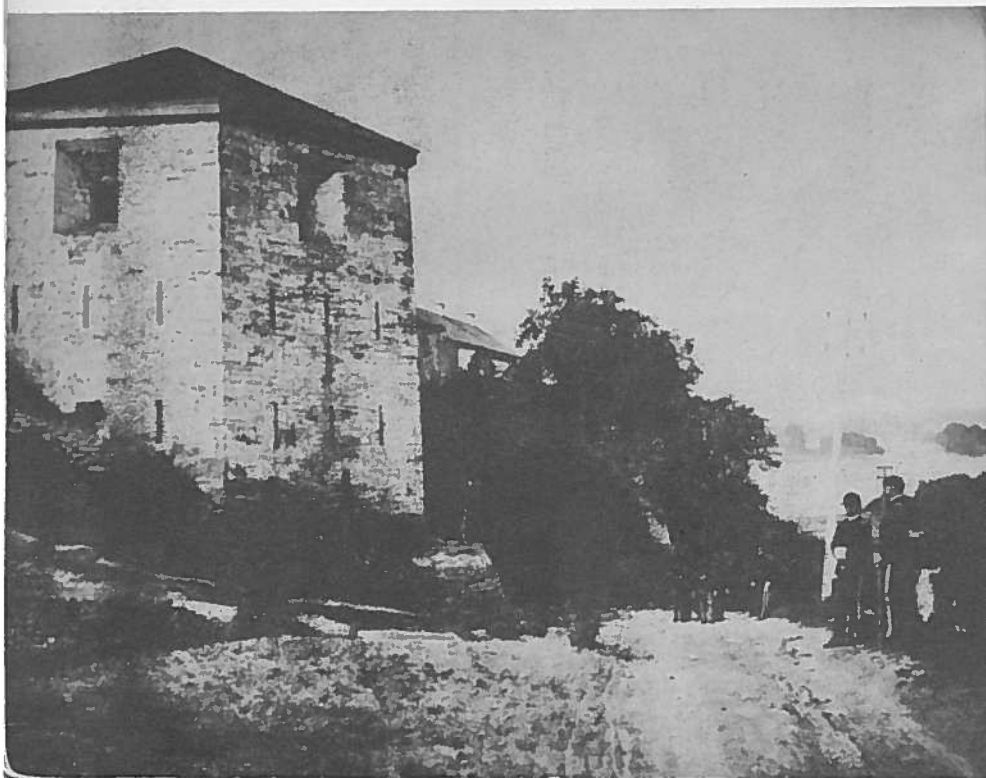

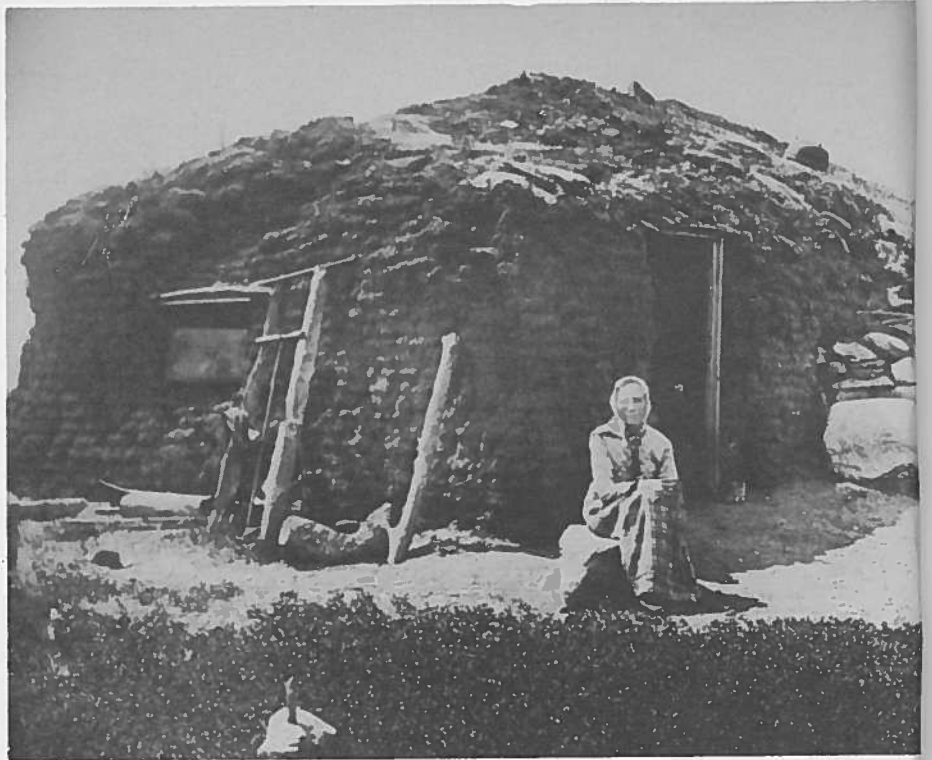

The Twin

Minneapolis and St. Paul take pride in the vital part they have played in the growth and development of the Minnesota Territory from the wilderness frontier of 1849 to the present position this great state holds in these United States of America.

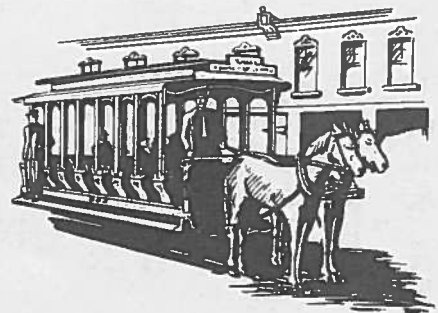

Minneapolis in 1870 was a thriving infant with growing pains. Compare this photo with the ones on the following pages depicting the city of today.

No housing shortage in the days of Minnesota's settlement as long as the good earth produced an abundance of sod. Houses such as this dotted the prairie sections.

This hexagonal block tower of Fort Snelling was one of the important early landmarks of this early mid-western military reservation. The fort was built in 1819.

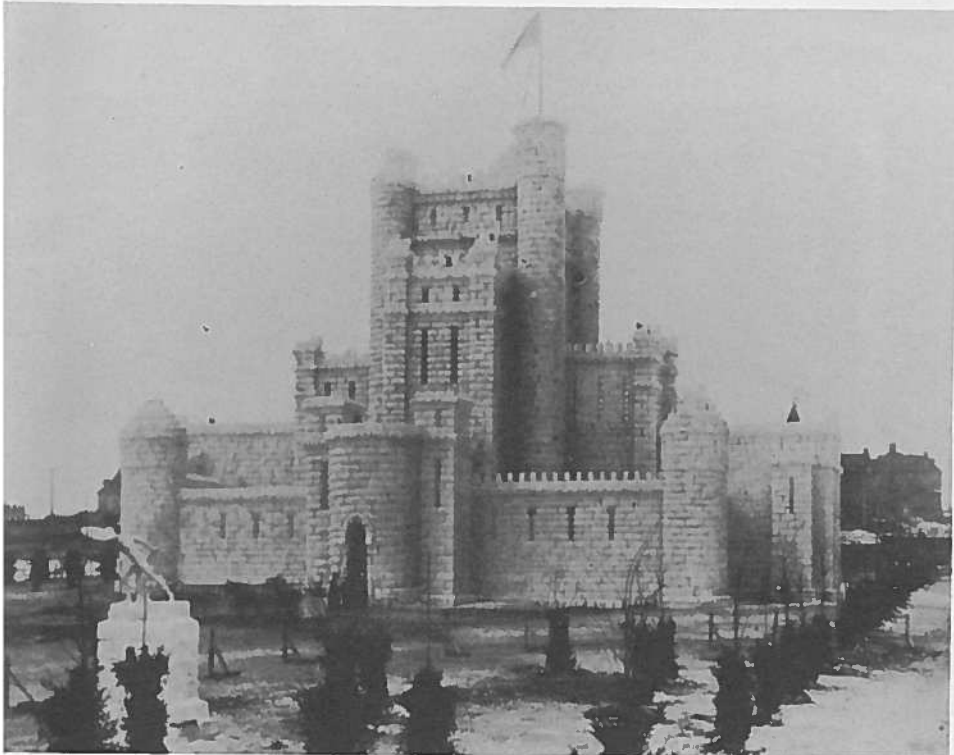

Cities THEN

American initiative has been the byword of the progress of this abundant land and the same spirit and foresight that established the destiny of this territory paves with promise the road that leads to the future.

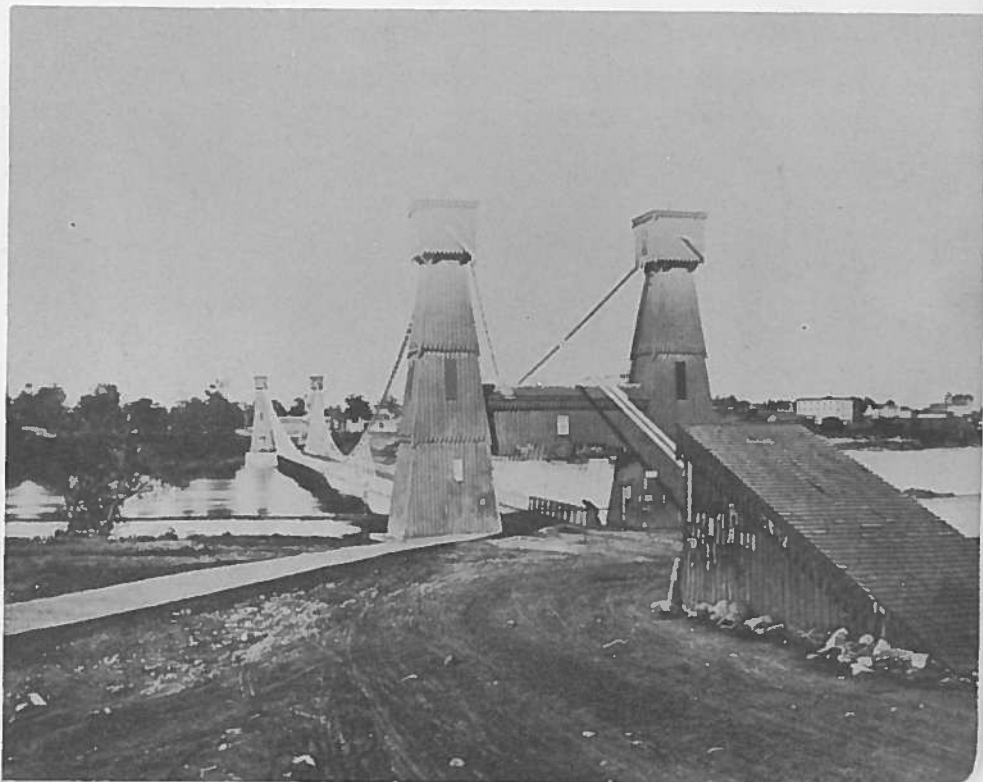

Early ore mining in Minnesota was a back-breaking job as men dug out the ore deposits by pick and shovel. Today, Minnesota mines ship the major supply of this resource to the nation's steel mills.

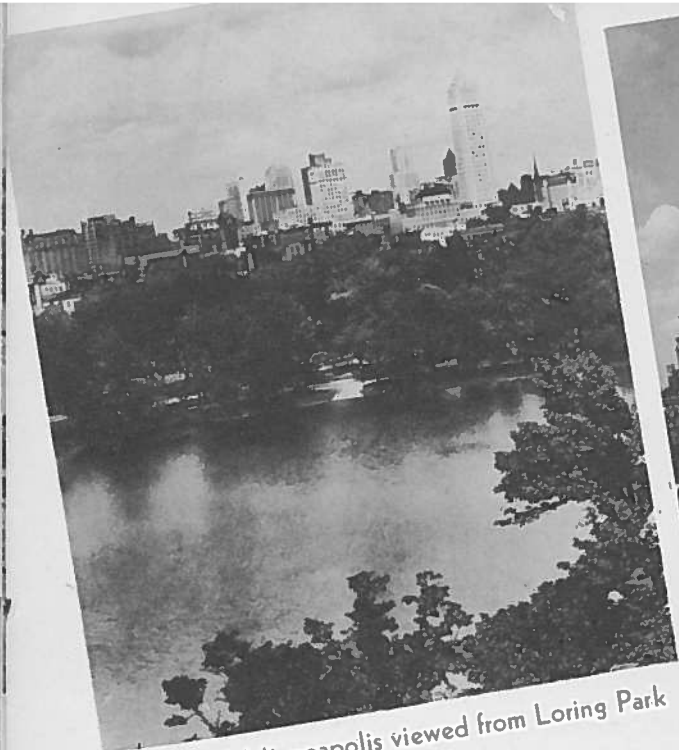

As far back as 1886 they were building ice palaces for the now famous St. Paul Winter Carnival. This one is a marvel of architecture and workmanship.

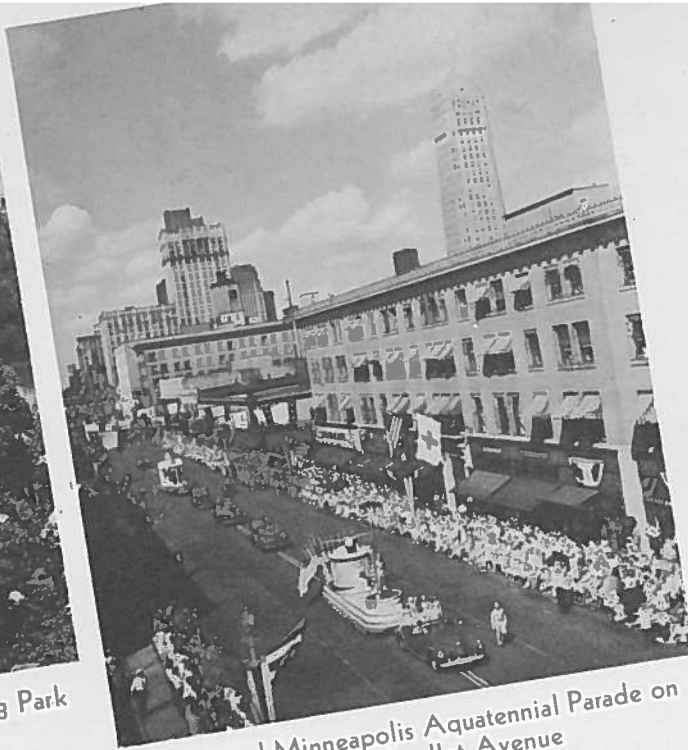

The first bridge to span the upper regions of the "Father of Waters" was this suspension bridge from the village of St. Anthony to Minneapolis.
