LISTEN GOOD . . by Johnny Canton

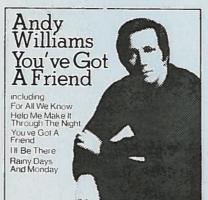

Hey, look at the kid being presented with an award. A Sterling silver cup, no less! This was a presentation from Sterling Magazine for being their Personality of the Month in their nationally distributed magazine, TV RADIO SHOW. In the October issue is a story about yours truly with photos and the whole bit. By the by, the issue is on the newsstands now, if you'd care to pick up a copy. Oh, yes, I am being handed the award by Bob Jernberg, who represents the Twin Cities' Independent News, which distributes TV RADIO SHOW in this area.

Well, Summer has just about run its course. It certainly has been another exciting one in the Twin Cities. We've had our share of concerts, shows, exhibitions, fairs, festivals, etc. Won't be long 'til you'll have to start thinking about school and that number.

Music remains better than ever! Great records are being made by The Carpenters, Elvis, Creedence—all the Superstars, and many great newcomers are hitting. This makes for a terrific chemistry in show business including our first love—RADIO!

That's about it for this time. Keep listening!

Andy gets it all together in a solid album loaded with today's most beautiful contemporary hits. All the quality and charm that Andy generates in performance is captured on this Lp. Especially outstanding are "It's Too Late," "Help Me Make It Through the Night," "How Can You Menda Broken Heart" and "You've Got a Friend." With the enormous success of "Love Story" still sweeping the country, "You've Got a Friend" is perfectly timed as a strong follow-up to keep Andy right on top!
