

Thank you. And you, and you...

It couldn't have happened without you...to be singled out as the best. That's what happened when the National Association of Broadcasters recently presented the Marconi Radio Award to WCCO Radio as the top AM and FM station in the country. The Marconi is to radio what the Emmy is to television. There couldn't be a more appropriate time to say thank you to our listeners who tune in and our advertisers who believe in what we do. And special thanks go to the employees whose efforts make this award possible each and every day...
