## LISTEN GOOD ..... by Michael

ELVIS PRESLEY . . . Lets see, where have we heard that name before? Well, try nearly one hundred single releases, 60 or 70 LP's, throw in two or three dozen movies, SRO Las Vegas shows, some TV Specials and . . . well, it just goes on and on and on. Elvis Presley, a living legend.

As Elvis and his compliment of musicians take the stage Friday to put together a bit of history, a thought will go thru my mind being a radio person. The thought: Thank you Elvis for making so much possible for so many. Elvis put youth, energy, change, and Rock Music before the American public way back when. He had long hair, physically expressed himself when he sang, did things HIS way, liked motorcycles, fast cars, was humble and SUCCESSFUL! This was ELVIS. Youth dug him, parents for the most part hoped he'd go away. Well, he didn't . . . he did his thing at a time when doing your own thing was 'BADSVILLE'. His dedication to a style and belief really opened the way for all of those who have followed in his footsteps . . .

I'll be there as will hundreds of other radio, TV, and entertainment people to see and "thank" the Legend, Elvis Presley for all that he has done for so many.

See you after mid-night week nights and Sundays from 3 - 9 PM!!!

Swing Loose, Hang Easy, Have a Nice . . .

*Michael*
